MOBOTIX

Scientel Solutions LLC Receives Award Recognizing Unique use of MOBOTIX Cameras

MOBOTIX (Headquartered in Langmeil, Germany) Held Global Partner Conference 2019 in Mainz, Germany on October 29th and recognized Scientel Solutions LLC (Headquartered in Lombard, IL, USA) with the Beyond Security 2019 Award.

Mainz, Germany – October 29th, 2019 – MOBOTIX held their annual Global Partner Conference where they launched new technology and recognized current partners for going above and beyond. Scientel Solutions LLC was awarded with the “Beyond Security” award for 2019.

The award is meant to recognize a deserving partner who is associated with a project incorporating MOBOTIX technologies that provides a unique solution beyond typical security and surveillance measures. The application showcases intelligence, innovation and integration to solve problems in a specific vertical market.

“It was a special moment to have Scientel Solutions receive the MOBOTIX “Beyond Security” award at our Global Partner Conference. They are using MOBOTIX hemispheric and dual-flex camera solutions that are affixed to cell towers to identify microclimates that impair data transmission. These microclimates consist of poor weather conditions including isolated severe thunderstorms as well as dense fog. Once the MOBOTIX solutions have identified these conditions, the transmission is then re-routed via a new pathway around the microclimate. Basically, the higher the transmission frequency, the higher the risk of connectivity issues, which is why having a work-around to navigate the problem is ideal. Also, standard weather reports can be insufficient to know when these microclimates occur and that is why utilizing MOBOTIX has been a game-changer for the business of Scientel Solutions” States Joe Byron, Vice President of Sales in the Americas at MOBOTIX.

“We are deeply honored that MOBOTIX has recognized Scientel Solutions’ continuing commitment to leading innovation into the 4th Industrial Revolution. Scientel has utilized MOBOTIX cameras in a truly unique way, far beyond the traditional video surveillance usage. We took it to the next level to open up cameras to new markets; MOBOTIX is a key partner in Scientel’s Ecosystem of Excellence”, says Michael Cataletto, Vice President of Engineering at Scientel Solutions LLC.

About Scientel Solutions

Scientel Solutions is a Universal Integrator™ that helps customers achieve their vision by leveraging the power of the 4th Industrial Revolution. Headquartered in Lombard, IL. with offices across the United States, Canada and Europe; Scientel has the capabilities to service international clients across the globe.
